

KUBTEL

KUB TELEKOMUNIKASI SDN BHD

Occupational Safety, Health & Environment Policy

At KUBTEL, we're committed to prioritizing safety, health, and environmental responsibility across our operations as a System Integrator (SI). Our dedication to excellence in Occupational Safety, Health, and Environment (OSH&E) is shown through these policy objectives:

- **Safety First:** We prioritize safety for everyone involved in our projects, from employees to contractors. By following strict safety protocols, we create a secure work environment.
- **Health Support:** We value the well-being of our workforce and provide support through ergonomic assessments, health screenings, and wellness programs.
- **Environmental Care:** We minimize our environmental impact through energy-efficient design, waste reduction, and responsible resource management.
- **Compliance and Best Practices:** We follow all laws and industry standards and strive to go beyond regulations to ensure top OSH&E performance.
- **Risk Management:** We regularly assess risks and implement controls to protect our employees and the environment, always seeking ways to improve.
- **Training:** We invest in training programs to ensure our employees have the skills and knowledge to work safely.
- **Emergency Preparedness:** We have robust plans in place to respond to emergencies, conducting regular drills and training exercises.
- **Stakeholder Engagement:** We engage with employees, clients, and suppliers to promote transparency and accountability in our OSH&E efforts, fostering a culture of collaboration and improvement.
